Javier Navarro Rodríguez

Full Stack Web Developer

📞 +34 693 744 798 | ✉ navarrojavi07@gmail.com

Summary

Full Stack developer with a front-end focus, specialized in building modern, responsive, high-performance web products. I work with HTML5, CSS3, JavaScript (ES6+), React.js, Next.js, and back-end when needed (Node.js, PHP, and APIs). Experienced in reusable components, performance optimization, and shipping real portfolio projects. I collaborate in agile teams with Git/GitHub and prioritize clean, maintainable, results-driven code.

Experience

Web Developer — Nubium Solutions | Nov 12, 2024 – Present

- Built custom PHP and JavaScript modules for Dolibarr, extending functionality based on business needs.
- Optimized performance and maintained existing modules, reducing load times and improving stability.
- Integrated APIs and improved internal flows to automate processes and reduce manual tasks.
- Provided ongoing support and evolution of the system, emphasizing code quality and best practices.

Front-end Web Developer | Sep 2023 – Present

- Built responsive user interfaces with HTML5, CSS3 (Flexbox/Grid), and JavaScript.
- Created reusable React components, increasing code efficiency by 40%.
- Improved web performance, reducing load times by 30% with techniques such as lazy loading.
- Collaborated in Agile environments with Git/GitHub for version control and code reviews.

Web Development Internship — AirCury, Granada | Mar 2025 – Apr 2025

- Supported front-end development tasks with modern technologies.
- Participated in code reviews and applied responsive web design.
- Maintained and debugged web applications.
